INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

To the Board of Directors Guam Preservation Trust:

We have compiled the accompanying balance sheet of Guam Preservation Trust (Trust) as of June 30, 2011, and the related statements of operations for the three and nine months, respectively, then ended. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements. During our compilation, we did become aware of departures from accounting principles generally accepted in the United States of America that are described in the following paragraphs.

Management has informed us that they are unable to assess the adequacy of the allowance for doubtful accounts in the accompanying financial statements. Trust management is in discussions with the Government of Guam to resolve the collectibility of its recorded receivables, and is currently unable to predict the ultimate outcome of this matter.

As of September 30, 2006, the Trust wrote off its leasehold interest because of their intent to terminate the lease agreement. As a settlement has not been reached, the outcome of this matter is currently undeterminable. Accordingly, the impact of this matter is not predictable.

Management has elected to omit substantially all of the disclosures and the statements of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures and statement of cash flows were included in the financial statements, they might influence the user's conclusions about the Trust's financial position, results of operations and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.
