INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

To the Board of Directors
Guam Preservation Trust:

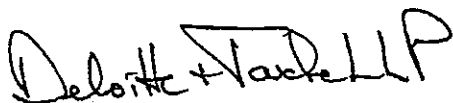

We have compiled the accompanying balance sheet of Guam Preservation Trust (Trust) as of September 30, 2009, and the related statements of operations for the three and twelve months then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting, in the form of financial statements, information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

Management has informed us that they are unable to assess the adequacy of the allowance for doubtful accounts in the accompanying financial statements. Trust management is in discussions with the Government of Guam to resolve the collectibility of its recorded receivables, and is currently unable to predict the ultimate outcome of this matter.

As of September 30, 2006, the Trust wrote off its leasehold interest because of their intent to terminate the lease agreement. As a settlement has not been reached, the outcome of this matter is currently undeterminable. Accordingly, the impact of this matter is not predictable.

Management has elected to omit substantially all of the disclosures and the statements of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures and statements of cash flows were included in the financial statements, they might influence the user's conclusions about the Trust's financial position, results of operations and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.
